

sunbrella®

2009 - 2011

INDOOR & OUTDOOR FURNITURE FABRICS

The leader in quality and innovation, decade after decade.

For over 45 years, Sunbrella® has been the leader in performance fabrics. And there's good reason people look to Sunbrella first for their fabric needs. No one else brings so much under one revolutionary, stylish brand.

No other resource is more committed to leading the performance fabric industry with innovations that fit today's lifestyles. With enhanced quality, additional colours and sophisticated styles, the next generation of Sunbrella offers more possibilities than ever.

a **BEAUTIFUL**
performance

Enduring Colour

Sunbrella colours stay strong and vibrant, even through intense sunlight exposure and cleaning with bleach.

Sumptuous Hand

Sunbrella fabrics are as soft and inviting as they are durable.

Dramatic Effects

Sunbrella fabric is available in hundreds of solids, stripes and textures as well as exquisite decorative jacquards.

Worry Free

Sunbrella fabric resists stains and fading, so you can stop worrying about your fabric and enjoy life.

In harmony with the environment.

Sunbrella creates no wastewater from dyeing.

Sunbrella® fabric's unique colouring process avoids harmful effluents associated with conventional dyeing processes. It also dramatically reduces water and energy consumption.

Sunbrella finishing processes consume less water.

Continual improvement in the Sunbrella finishing application process at the Wasquehal, France plant allows us to use the same water several times for successive operations, as well as to recycle most of our wastewater. Heat from our wastewater is also recuperated to warm our clean water.

Sunbrella fabrics are extremely durable.

Sunbrella fabrics are engineered to last two to ten times longer than conventional fabrics. Thanks to their extended lifecycle, the long term environmental impact of Sunbrella fabrics is considerably less than that of cotton canvas, for example.

Sunbrella fabrics are safe for people and nature.

Sunbrella fabrics have been tested according to Oeko-Tex 100: this label certifies that they contain no harmful substances, and present no hazards to health, skin or the environment.

Sunbrella fabrics are durable.

Sunbrella superior pigments are added during the production of fade-resistant Sunbrella fibre. The final result is Sunbrella yarn and fabric with colour throughout that won't fade or wash away. Think "carrot".

In ordinary fabrics, dyes are added to the surface of the yarn or fabric. The colour only penetrates the outer layer and washes out or fades away over time. Think "radish".

Sunbrella fabrics are easy to clean.

Sunbrella fabrics are amazingly easy to maintain, and most spills can be cleaned with mild soap and water. For tough stains, bleach can be used without fear of damaging the fabric or removing the color.

The best way to keep Sunbrella fabrics looking good is to properly maintain them by brushing off dirt before it becomes embedded and wiping up spills as soon as they occur.

Additionally, a topical finish is applied to all Sunbrella fabrics to help them repel liquids making it even easier to maintain.

Sunbrella fabrics protect you from the elements.

The Skin Cancer foundation recommends Sunbrella* as an aid in the prevention of sun-induced damage to the skin. Please use shading products featuring Sunbrella as a part of your complete sun protection regime, including regular use of sunscreen.

* Does not apply to styles of Sunbrella that are designed for transparency, such as Sunbrella Velum

WARRANTY

5

YEARS

Sunbrella 5 year limited warranty.

This limited warranty protects the original purchaser should Sunbrella® furniture fabric become unserviceable due to colour or strength loss from normal usage and exposure conditions.

The limited warranty coverage period is five years* from the date of purchase.

This limited warranty covers Sunbrella furniture fabric only. This limited warranty is valid with proof of purchase from the original purchaser. This limited warranty does not cover normal fabric care and cleaning; damage from misuse, abuse, or improper installation; or costs associated with replacement of the fabric, including labour and installation.

Manufacturer and end user:

Sunbrella fabric is usually part of a set of elements combined to form a final product, as a cushion or umbrella. Associated materials involved should always be materials suitable for outdoor use to prevent possible damage to the Sunbrella fabric.

Dickson Constant disclaims any liability for damage to Sunbrella fabrics caused by other elements used in the final product and/or by a lack of routine maintenance (see conditions of maintenance and cleaning).

The guarantee will not apply to damage caused in such cases. The buyer must contact the supplier of the element that caused the defects.

To perform an action in warranty, see the retailer where the final product was purchased.

Dickson Constant's liability is expressly limited to this warranty. Dickson Constant reserves the right to inspect the fabric submitted for claim.

Dickson Constant will supply new equivalent Sunbrella fabric to the purchaser at no charge to replace the fabric that becomes unserviceable. Replacement fabric is warranted under the remaining term of the original warranty.

* 3 years for Sunbrella Sling

Care and cleaning

Comfortable, beautiful, and oh so liveable, Sunbrella fabric makes the dining or living room as worry-free as the outdoor room. It's amazingly easy to maintain, and most spills can be cleaned with mild soap and water. For tough stains, bleach can be used without fear of damaging the fabric or removing the colour. With this kind of durability and a wide range of styles, what's not to love?

One of the best ways to keep Sunbrella fabrics looking good and to delay deep or vigorous cleaning is to properly maintain the fabrics. This can be accomplished by simply brushing off dirt before it becomes embedded in the fabrics, wiping up spills as soon as they occur or spot cleaning soon after stains occur.

General or light cleaning

- Brush off any loose dirt.
- Machine wash at 40°C or hand wash as follows:
- Prepare a cleaning solution of 60 ml mild soap for 4 l of lukewarm water (less than 40°C).
- Clean with a soft bristle brush and allow cleaning solution to soak into fabric.
- Rinse thoroughly and allow fabric to air dry.
- If necessary, use an iron set to "synthetic fabric" heat. DO NOT use a steamer or an iron with steam setting.

Heavy cleaning for stubborn stains and mildew

Sunbrella fabric does not promote mildew growth, however, mildew may grow on dirt and other foreign substances that are not removed from the fabric. To clean mildew, or other stubborn stains:

- Prepare a solution of 240 ml of bleach and 60 ml of mild soap for 4l of clean water. Spray on entire area and allow to soak into the fabric.
- Scrub vigorously with a soft bristle brush, rinse thoroughly and allow fabric to air dry.

For removable Sunbrella fabric umbrella and cushion covers, machine wash in cold water (less than 40°C). Depending on wash load size, use normal amounts of mild laundry soap and add 240 ml of bleach if needed. Allow fabric to air dry. If stain and/or mildew are severe, bleach quantities may be increased.

Re-treating the fabric for ease of cleaning

Sunbrella fabrics have a special finish that enhances water repellency. The finish is designed to last for several years of normal use, but may be refreshed with 303 High Tech Fabric Guard™, the preferred re-treatment product for Sunbrella fabrics.
